## Welcome to the BCG family!

The Bombay Cambridge Gurukul schools are unique in that they have evolved out of a philosophy, an idea. Since 1988, inspired by great thinkers of the times, BCG pioneered the concept of 'caring schools', introducing several child-friendly concepts ahead of time, validated today by educational research across the globe.

Cognizant that the child today will apply his/her learning in a future that is 20 years away, BCG schools have a robust digital, life skills and curricular program. Our alumni are spread across the globe, and are active mentors to our students.

In BCG, **every child matters**, and it is reflected in every step of our course plan and activities. Our educational program is driven by our mission – excellence in academics and excellence in behaviour! We take pride in our students' accomplishments, and their achievements are a testimonial to our educational philosophy.

Parents play an integral role in setting direction for their child, and our partnership will provide the impetus for success. We welcome you to begin your child's journey with us, and look forward to a long lasting and enriching relationship.

**Vikram Patel**  
Chairman

**Our Mission** is to provide a dynamic learning environment in school that is committed to achieving excellence in academics and behaviour in our students. Our school provides a nurturing climate for children, caring teachers to facilitate the development of 21st-century skills and a sensitive curriculum which develops equally the hearts and minds of our students.

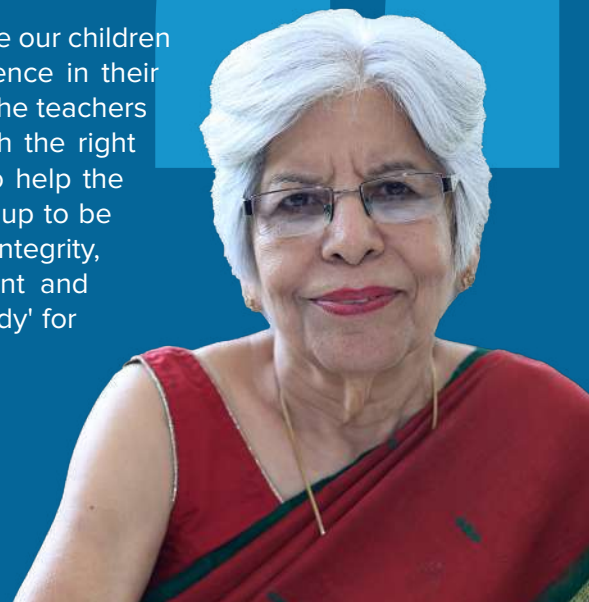

**Our Vision** is to generate world graduates, who possess the crucial skills and values to develop a humane society and be the fore-runners of thought as responsible citizens of a global community.

Veer Bhagat Singh International School is a co-educational day school offering an exceptional school experience to each of our learners. The school provides students with an option to study under the Cambridge Assessment International Education (IGCSE) or State Board Secondary School Certificate (SSC). At Gurukul International Kindergarten, we follow the Early Years Foundation Stage (EYFS), a statutory framework that sets universal standards for learning, development and care for children. At its core, it recognises that all children are unique and that learning and development must be planned around each child's individual needs and interests. With a view to achieve this objective, teachers are regularly introducing innovative, interesting and organized teaching pedagogies to ensure we provide Quality Teaching to our students. Curriculum is the driving force and Technology is the accelerator. Our approach that is Inquiry Based learning equips our students with reasoning and critical thinking skills. Our committed teachers carry out their responsibilities through determination and hard work.

At VBS, we believe that a child's emotional and social wellbeing is as important as his/her academic performance. The Social-Emotional Learning Curriculum is helping students deal positively with their experiences bringing back their confidence, bond with their peers and learning the joy of sharing with and caring for others. The school regularly shares with students some interesting facts about our country's growth and strides it is making around the world in various fields and build a sense of pride in their country -a step towards making them responsible citizens.

We are looking forward to a productive partnership with you to ensure our children can achieve their highest potential resulting in a significant difference in their education. We believe that each child is like an uncut diamond and the teachers are able to recognize the hidden quality through observation. With the right support and encouragement, they can nurture the hidden talent to help the child to shine in future. Our vision is to guide our students to grow up to be such world leaders who possess the crucial skills and values of Integrity, Reasoning, Sensitivity and Courage. Through positive engagement and enriching experiences, we ensure that our students are 'Future Ready' for opportunities and challenges that lie beyond the school. For us, every child matters.

Parent and Student Workshops

BCG Academia provides students with an option to study under the Cambridge Assessment International Education, UK (IGCSE) or Maharashtra State Board Secondary School Certificate (SSC).

With our highly trained teachers and over 25 years of educational research and refined methodology, we ensure that each student is able to maximize their academic potential.

With World Toppers and A\* achievers in IGCSE and over 75% of our students scoring over 90% in the SSC exams – BCG's superior curricular program caters to every type of learner.

## Gurukul Kindergarten

The Kindergarten curriculum is implemented using the play-way method and includes consciously planned activities for all-round development. It is designed to match the pace of individual learners and calibrated to their developmental stage. The students enter the world of Primary education with confidence and build on the foundations of skills acquired in preschool.

## Primary and Secondary Education

The course is as prescribed by the Brihanmumbai Municipal Corporation for the Primary, and as per the Maharashtra State Board of Education for the Secondary section. The teaching methodology uses the prescribed textbooks of the Maharashtra Board and includes field trips, project work, and specially designed worksheets that ensure complete learning and inculcate the habit of self-management.

Students have an environment that allows them freedom for individual expression and develops the capability that is required to show achievement in the final examinations as per the standards set by the Board. The academic level of students shows that they are well up to the standards of measurement, while at the same time, able to participate in the numerous activities that the school provides for them. The students are bench-marked with the best in the State and participate in various events and competitions organized by the Education Department.

Our students have consistently made us proud with their extraordinary achievement at the SSC Board examinations.

## SSC Topper 2022-23

VBSV is not just a school, but also a platform where we all come together as one. School has given me a whole new experience in my life. As rightly said everyone, "School is just another home.". Being at school was never a bore, every second, every minute and every hour of it was precious to me. Our teachers at VBSV have always welcomed us students with a warm heart. Our school has provided us with various opportunities for unleashing our talents, like the BCG competitions, Momentum Crescendo, Exhibitions by students and many. Along with education, VBSV has provided a lot many things to us students. In Std 10th, we all were full of anxiety and fear, but our minds were put on ease with the help of the guidance given by the teachers. This last year of my school was a memorable one. I will never forget all these memories that my school has given to me. It will always hold a special place in my heart.

I am really thankful to VBSV for giving me this opportunity to express myself.

## What is SELC - Self Awareness, Self-Management, Social Awareness, Responsible Decision Making, Relationship Skills

BCG has been a pioneer in establishing the Social Emotional Learning Curriculum. We place equal emphasis on both the behavioural and social-emotional development of students as part of our commitment to delivering a future-oriented education, in order to equip our students with vital life skills thereby promoting not only academic success but also overall well-being.

## BCG Initiatives

**Learning for Enhancing Academic Prowess (LEAP)** - Designed to help our Std. 10 students who excel in academics, the BCG LEAP program is driven by our senior and highly qualified faculty members. They use their expertise and competence to guide the meritorious students to reduce the margin of error, if any, and attain the best score through individual and in-depth guidance and feedback thereby helping them to hone their content skills, master time-management and test preparation, and maximize their scores.

## School Facilities

Our school facilities are consciously planned to provide the best advantage to the learner and to ensure educators have every teaching method available to them. These systems ensure that essential skills for responsible citizenship and personal care are taught to students.

- Qualified and Experienced team of educators
- Well-equipped auditorium
- SMART Board technology
